

Robseal Company Timeline

- 1963 Robseal Roofing Company was formed to provide the 'Robseal Three Coat Waterproofing Treatment' a liquid bituminous roof waterproofing system developed and introduced to the Industrial markets to extend the life of an existing failing roof.
- 1968 The service was expanded to encompass the supply and installation of quality traditional felt roofing services.
- 1974 Joined NFRC and became active contributors to standards of workmanship in the Bituminous Felt and waterproofing sector.
- 1976 Won major ongoing roof maintenance program for Earl's Court and Olympia Exhibition Halls in London.
- 1978 Robseal started to investigate and install some of the first single ply PVC based membranes to be introduced into the UK.
- 1980 Took a pioneering position on Single Ply as one of the first companies to have assessed the products' potential and established a training program to ensure its proper on site installation.
- 1985 Robseal was one of the first Contractor members of the newly formed Single Ply Roofing Association (SPRA) taking a seat on the management committee culminating in the roll of Chairman of the association.
- 1990 Won Quality Standard BS5750 later to become ISO 9002 for administration, design and installation systems/work quality.
- 1991 Won UK's then largest single ply roofing contract at Heathrow's World Cargo Centre - 27000 sq metres
- 1996 Changed from using sub contract labour to 100% fully employed - I.E. taking full control of our installation workforce thus ensuring proper training, quality control and client satisfaction.
- 1997 Set up full Training School facilities in-house for the provision of NVQs to our installation teams.
- 2002 Achieved 'Investor in People' Award - presented by Sir Micheal Latham head of the Government's Industrial Training Board CITB.
- 2006 Achieved 100% NVQ qualifications for entire workforce. Every site foreman having achieved NVQ 2 qualifications in applied waterproof membranes, with all other fixers either having achieved NVQ 2 or working towards it.
- 2007 Selected to work with CITB in new Training Schemes for NVQs in Applied Waterproof Membranes sector.
- 2007 Now providing the highest quality flat roofing service to Industry, Commerce, Local Authority and now... residential.
